Designed to share

With one of our fastest smartphones on our nationwide 4G network, it's easier to share with more people in more ways and more places than ever.

Share Media On Your TV | Share With Friends | Share Mobile Internet | Share With a Group

AllShare Cast
Sit back and enjoy movies, music, pictures, games or the web on a big screen TV without the wires. Experience full HD quality as your mobile device mirrors content directly from your phone to your HDTV.

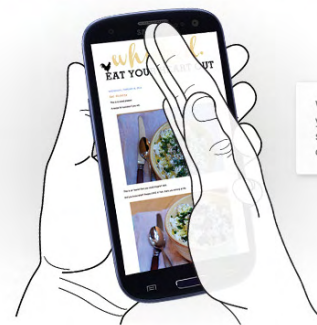

Full HD goes mobile

Immerse yourself in a rich, full HD video experience with the Galaxy S III's vivid 4.8" HD Super AMOLED screen. Plus, *Marvel's The Avengers* is available to download via the Samsung Media Hub and is included with the purchase of your T-Mobile Samsung Galaxy S III device.

The phone that sees, senses, and responds

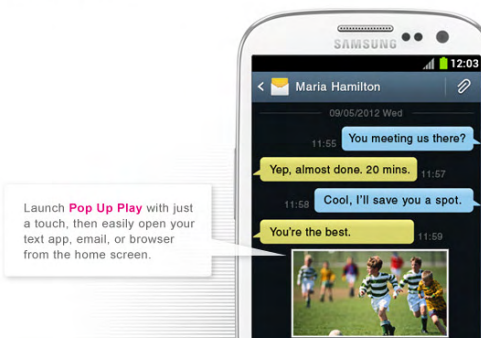

Breakthrough features like **Smart Stay** keeps the screen bright while you're looking at it, while **Gesture UX** intuitively turns your natural movements into commands.

With features like **Screen Shot**, you can capture your phone's screen image with just a wave of your hand.

The phone that multitasks, so you can, too

The Samsung Galaxy S III lets you multitask with its **picture-in-picture** feature, so you can text, email, or surf the web while you watch your favorite videos. Now you can connect with more of your life than ever.

Smartphone Mobile HotSpot
With the Samsung Galaxy S III, you've got mobile Internet right where you need it. You can connect up to ten laptops, tablets, and more to the Internet without Wi-Fi. That's the power of 4G. Smartphone Mobile HotSpot service required; not available on Unlimited Nationwide 4G Data plan.
